

Your well-being is our primary concern

To our customers and friends,

First Fed will continue operations at all locations, and we enjoy seeing you in our bank branches. However, due to recent health concerns we have temporarily closed our lobbies. **If you need to visit us in person, just call your branch to schedule an appointment.** Below are several other ways you can access your First Fed account:

Drive-up: All three of our branches have drive-up facilities. If you need to visit a branch in person, you can still conduct all transactions through the drive-up.

Telephone: Call any branch during our normal business hours and an employee can assist you.

Online & Mobile Banking: You can access your account at www.1stfedci.com or use our mobile app. If you have not signed up for online banking yet, just call a First Fed branch to get started.

ATM: We have ATMs at each branch location. You can withdraw cash, check balances, and even make deposits.

If you need to visit us in person, just call your branch to schedule an appointment.

All loan closings will proceed as scheduled. If you are interested in applying for a loan, you can download an application from our website or pick one up at a branch drive-up to get started.

One of our highest priorities is the health of our staff, customers, and the communities we serve. We are monitoring updates on COVID-19, implementing appropriate risk management, and increasing cleaning and sanitization efforts at our branches. While we believe it is important not to overreact, we are trying to do our part to keep our staff and communities healthy. We appreciate your business and your understanding.

Please visit www.1stfedci.com for updates and more information.

STOP THE SPREAD OF GERMS

Help prevent the spread of respiratory diseases like COVID-19.

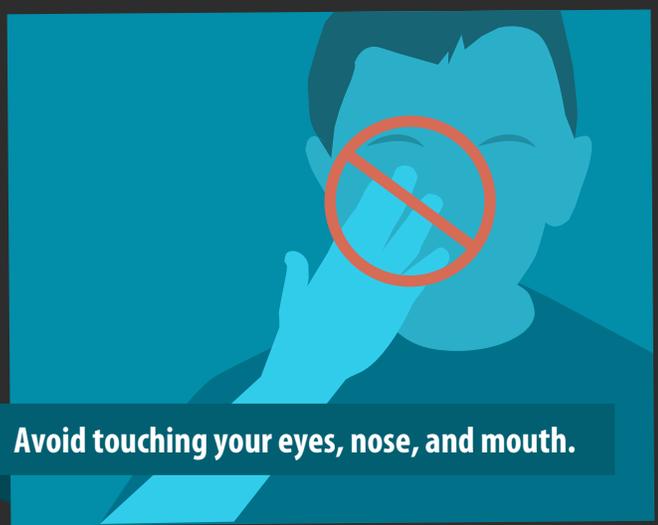

Avoid close contact with people who are sick.

Cover your cough or sneeze with a tissue, then throw the tissue in the trash.

Avoid touching your eyes, nose, and mouth.

Clean and disinfect frequently touched objects and surfaces.

Stay home when you are sick, except to get medical care.

Wash your hands often with soap and water for at least 20 seconds.
