

Minimum Supported Versions for Browsers, Desktop Operating Systems (OS) and Mobile Operating Systems (OS)

Browsers:

- Google Chrome – Current Release
- Firefox – Current Release
- IE 11 * (Not Supported)
- Edge
- Safari 11 or newer

Desktop OS:

- Windows 10
- OS X 10.10 or newer

Mobile OS:

- iOS version 11 or newer
- Android version 5.0 or newer

*** Microsoft doesn't support IE 11 as of November 2020**

The main hard limit currently is Transport Layer Security (TLS) 1.2 for security, which rules out very old phones, browsers and operating systems which can't support TLS 1.2.

There are requirements for specific features (e.g. you need a camera to do direct deposit) but even those tend to be pretty universal.
